

Day's End Shur Flyte Launchers

THREE of these are available for \$125 each.

These launchers are no longer made; the closest thing now available is the Gunner's Up box launcher, which retails for \$250 (plus electronics for remote use). These were priced at \$290 each new without electronics.

- ❖ Will throw bumper, Dokken, or dead duck or game birds
- ❖ Can also be used with live birds to simulate flush or for live flyers
- ❖ Uses .209 primer for shot

Tri-Tronics 150 Remote Release System with 3 receivers

\$225

Recently reconditioned with new nickel metal hydride batteries. The same reconditioned unit is currently selling at The Collar Clinic for \$175 with one transmitter and one receiver.

- ❖ One transmitter with Avery blaze orange holster (controls 3 or more receivers)
- ❖ Three receivers with turn on plugs, compatible with the above box launchers, also work with new Son of A Gun wingers and Max 5000 bumper launcher.
- ❖ 2 chargers, each will charge 2 components at once

I would prefer to sell this equipment all together and will sell it as a bundle (3 launchers with electronics) for \$550.
